LAGUNA BEACH - Friday, September 21, 2007 | *You are invited to participate in a special activity entitled "Pinwheels for Peace," which celebrates the International Day of Peace.*

The Pinwheels for Peace project was started in 2005 by two art teachers in Florida who were looking for a way to help their students express their feelings about the things going on in their lives and in the world around them. The project is non-political, asserting a simple definition of peace - a state of calm and serenity in the absence of violence and freedom from conflict among people or groups of people. Last year over one million pinwheels were spinning in recognition of the goals of the project. Endangered Planet Gallery and Foundation are coordinating this annual project locally here in Laguna Beach to groups of all ages around the world. Join us!
